

Welcome to the 2011 Clemens Cycle for Cancer.

Thank you, all of you, for riding, volunteering, or supporting Clemens Cycle for Cancer. Thanks to today's route sponsors: Hawk100, Boost Rewards, & Dermatologists Southwest Ohio.

Thank you, Jenny Lewis and the MVH Foundation staff and Cristlyn Johnston and the Miami Valley South staff. Without your support this event would not have grown to where it is today.

Thank you to my family. Holly, Jason, Julia, and Andy. My brothers Mark, Jerry, Steve, Bill, Linda, and Bob and their wives. Thank you to my Dad's wife Debbie, and of course thank you, Dad & Mom.

Whether you have been part of Clemens Cycle for Cancer for years or if this is your first time with us, we hope you commit to annually joining our effort to help cancer patients and their families.

Fifteen years ago I watched my Mom heroically suffer difficult treatment before dying of cancer. In her final grace, Mom held us together as a family and gave us a hero.

Five years later, Dad was diagnosed. Dad's inspiring spirit for life made my siblings and I think of how to show our love for him and to fight the disease with him. Dad participated in the first two years of Clemens Cycle for Cancer. While Dad fought and after he passed, my family rallied and took strength from the cause.

We committed to action to make life better for other cancer patients and their families. We founded Clemens Cycle for Cancer to give families an event to honor their heroes and celebrate their inspirations, and to enjoy scenic bike rides together.

Over the years, our Clemens Cycle for Cancer Family expanded to include close friends and other family members diagnosed with cancer. Several have since joined my Mom and Dad in heaven, others continue their courageous fight, and a few beat the

Contact Hawk100 to discuss how the concepts discussed herein may affect the alignment of your wealth with your life.

On June 18, 2011 in Centerville, Ohio, Hawk100 President and Clemens Cycle for Cancer Founder, Richard Clemens, CFA, gave an emotional speech to nearly two hundred cyclists and dozens of volunteers and supporters of Clemens Cycle for Cancer. This annual event improves lives of cancer patients and their families who receive care and treatment at Miami Valley Hospital. Mr. Clemens shared his emotional remarks.

disease into remission. I ask you for a moment of silence while we remember and honor our friends and family members.

Since 2003, hundreds of cyclists, volunteers and supporters have joined our cause and, in so doing, joined our family. Our impact on families facing cancer treatment has grown, and your energy today gives all inspiration to continue fighting.

Proceeds this year support outreach activities, cancer screenings, and diagnostic detection, and your pedal strokes help uninsured and underinsured patients receive care that prolongs their lives.

As you honor your hero and celebrate your inspiration, remember why we ride. Make each pedal stroke symbolize a patient's perseverance. Make each wheel revolution represent the circle of supporters, including family & caregivers, who help the patient move forward. Make each hill climb & descent characteristic of chemotherapy's peaks & troughs. Make each rain-drop resemble treatment dosages that rinse the body of cancerous cells.

Whenever you enjoy scenic cycling, or come together as a family, remember your Clemens Cycle for Cancer family, and remember this moment when you helped improve lives.

Ride safely.

Your wealth.
Your life.
Aligned.
